

# Simple Gifts Technical Requirements

## back stage

- Other equipment needed:

  - 1 armless chair

  - table to display instruments, table for CD sales, 2 tables off-stage if possible

- All mics should be on boom stands. Simple Gifts can sometimes bring extra boom stands (also mics and cables), so let us know.

- House lights should be at half throughout the concert.

- Hospitality: coffee, bottled water, and diet pepsi on arrival.

- Since we perform on about 10 different instruments, our sound check can take up to an hour. Please have the sound system set up and ready to begin the sound check two hours before performance time.

- If you are not able to provide what is indicated here, please contact us. Depending on the circumstances, we can sometimes get by with less, and it is sometimes possible for Simple Gifts to provide the entire sound system.
